Mussoorie Dehradun Development Authority, Saharanpur Road, Near Transport Nagar, Dehradun

About us

MDDA was established in 1984 with objective of planning and development of the city. Dehradun manifests its position as an important city in the most fertile region of Doon Valley between rivers Yamuna and Ganga. It is in fact, the most developed city in the Sivalik foothills and the gateway to the far-flung hill areas of Uttaranchal. To check the haphazard development and degradation of natural environment, to sustain the glory of the city and to build further upon it was colossal task handed over to the MDDA in the year 1984 under the provisions of U.P Urban Planning and Development Act 1973. Mussoorie Dehradun Development Authority area includes entire Dehradun District which covers Dehradun City, Mussoorie Municipal Area, Rishikesh Tehsil Area, Pachwa Doon and Parwa Doon, except Cantonment Area. The limits of this Development area coincides with the Dehradun district boundary in the north up to Buranskhanda, lower shivalik range in south and west and river Ganga in the east. Former Doon Valley Special Area Development Authority has been merged with Mussoorie Dehradun Development Authority in the year 2019.The objective of this development authority is to provide planned and plenary development of the area under its jurisdiction.

MDDA is a local decision making agency and it is totally self-sufficient, capable of undertaking all sorts of activities for well planned urban development. The challenges before MDDA are massive and diversified, as District Dehradun requires an integrated development process, which has to be inexpensive, functionally utilitarian, environmentally healthy, re-creationally adequate and aesthetically appealing. MDDA is committed to keep pace with the needs of fast growing population and relevant infrastructure required for such phenomenal growth. The Development of Dehradun districte in a planned manner, creating quality infrastructure, provision of sites and services and the housing needs of under privileged are the focus areas of MDDA.

MDDA has been awarded with several prestigious accolades. Recently, the authority has been awarded with National Award for e_Governance (Gold) by Government of India, Beast Digital Initiative (Technology), SKOCH Award (silver) for its outstanding effort in improving the bye-laws regulations and e_governance. MDDA has also been awarded with India Pride Award for Best State PSU. MDDA is an ISO certified government agency monitoring the process of urban planning in the district of Dehradun.

About Façade Contest 2020

Due to increasing population and unabated migration, cities are becoming sprawling urban hubs. The challenges of urbanization manifest themselves in various forms. Solid waste management, unending traffic and the deterioration of environment are some of the most basic and visible consequences of the urban growth. For ecologically and seismological sensitive cities like Dehradun, considerations of sustainability and resilience assume even greater significance.

In this backdrop, as India advances to make its cities smarter and technologically advanced, there's also a need to make them more inclusive and citizen centric. MDDA believes that architecture, urban planning and Information Technology/Computer Science students can play a role of being an "enabler" in the process of urban transformation. It can ensure a more sustainable path for urban development.

Keeping this in mind, MDDA is providing a first-ever opportunity for students from Architecture and Information Technology/Computer Science discipline from Dehradun based Universities and Colleges to join the policy formulation process and improve the urban governance landscape for the cities of Dehradun district.

The main objective of MDDA's this initiative is to seek ideas of architectures who love to promote local architecture hence creating beautiful urban cities. Government has recently announced its façade policy to have similar façade all over the cities of Uttarakhand depending upon local architecture. All participants are thus requested to submit the façade design depending upon architecture of Uttarakhand. This exercise is the step towards this goal.
